# IMMERVISI N 

see more, smarter

## Further，stronger，together．

＂If it takes a village to raise a child，it takes an entire community of dedicated and visionary professionals to break the barriers and advance science and technology in a given field．It takes time too．We are grateful for the trust and loyalty of our ecosystem partners who，like us，have embarked with passion on a quest to make smart vision systems for smart devices a reality．＂
－Pascale Nini，President and CEO
